

WLC Recognizes Employees at 2017 Longevity Award Lunch
August 17, 2017

In August 2017, WLC Engineering, Surveying & Planning celebrated the company's annual longevity awards. WLC values our employees as one of our greatest assets. As such, it's important to us that we recognize and say thanks to those that are dedicated to WLC and its success. Awards are given to employees for every five years of service to the company. To recognize employees that reach these significant milestones, WLC hosts an internal lunch and provides each recipient a longevity bonus and additional annual vacation. This year's recipients include:
